EDUCATION

- Rangsit University

(Information and Communication Technology)

Bachelor of Science

June 2023 - present

- GPA - 3.6 / 4.0

SKILLS

Frontend - Html, Css, Javascript, Typescript, React.js, Next.js

Backend - Next.js API Routes, Node.js, Rest API, Prisma ORM

Database - PostgreSQL, Supabase

Tools - Git, GitHub, Vite, Vercel

UI/UX - Figma, Wireframing, User Interface Design

LANGUAGES

Myanmar - Native

English - Proficient

Japanese - JLPT N4

PORTFOLIO

PROFILE

Final -year ICT student at Rangsit University with experience building responsive web applications using React.js, Next.js, Javascript, Prisma ORM, and PostgreSQL. Currently seeking a 4-month internship in Web Development to apply and expand my technical skills.

WORK EXPERIENCE

MMS IT , Myanmar

July 2025 - June 2026

Front-end Developer (Intern)

- Developed responsive React applications
- Designed interfaces in Figma
- Worked with developers and designers
- Improved UI consistency
- Built reusable components

PROJECTS

AI Study Hub | Next.js, Next.js API Routes, PostgreSQL (Supabase), Supabase Auth, Google Gemini API

- Built a full-stack AI learning platform that transforms uploaded study materials into summaries, flashcards, quizzes, study plans, and document-based chat using Next.js, Supabase, Prisma ORM, PostgreSQL, and Google Gemini API.

TravelEase - Full-Stack Travel & Tour Management Platform |

Next.js 15, React 19, TypeScript, Tailwind CSS, Supabase, Better Auth

- Developed a full-stack travel booking platform using Next.js, Supabase, and Better Auth.
- Implemented user authentication, tour booking, and an admin dashboard.
- Built features for managing tours, bookings, customers, and content.
- Designed a responsive UI with advanced search and filtering.

Event Booking System | Next.js, Next.js API Routes, Prisma ORM, PostgreSQL (Neon)

- Developed a full-stack Event Booking System using Next.js, TypeScript, Prisma ORM, and PostgreSQL (Neon).
- Implemented secure JWT authentication with HttpOnly cookies and bcrypt password hashing.
- Built role-based access control for User and Admin with protected routes and APIs.
- Created event management, booking workflows, search/filter functionality, and an admin dashboard.
