About Me

Final-year ICT student at Rangsit University with experience in frontend web development and UI/UX design. Skilled in building responsive web applications using React.js, Next.js, JavaScript, Prisma, and PostgreSQL. Passionate about creating modern user-friendly interfaces and continuously improving development skills through real-world projects and internship experiences.

EXPERIENCED PROJECT

AI-Driven Smart Analytics Dashboard | React, Next.js/Vite, Tailwind CSS v4, shadcn/ui, Google Gemini API

- Built a serverless (100% client-side) dashboard that parses CSV, Excel, PDF, Word, and TXT files directly in the browser.
- Integrated Google Gemini API to analyze raw text and data, automatically generating summaries, trends, and business insights.

LogiTrack (B2B Fleet Dispatch & Manifest Automation Dashboard) | React, Tailwind CSS, shadcn/ui, Context API, JavaScript

- Built an interactive B2B logistics dashboard to manage fleet orchestration, driver dispatch, and automated manifest workflows.
- Implemented a drag-and-drop route planner for seamlessly assigning tasks and reordering deliveries on the fly.
